

PRE-CONGRESS WORKSHOPS

The organizing committee of the 5th congress of European ORL-HNS and the contributing subspecialty societies invite industry partners to host pre-congress workshops for delegates to give them a hands-on experience and personal exchanges about the newest products and techniques available.

Date: Saturday, June 29th

Time: between 13:00 and 17:30

Duration: 120 minutes per workshop

Cost: EUR 12.000,-/net

Included in fee: provision of workshop room, set up, basic AV equipment, pre-congress workshop mentioned in the final congress program, the congress app and the congress website featuring the company logo

The committee proposes the following topics for pre-congress workshops:

- Approaches to frontal sinus
- Approaches to maxillary sinus
- Approaches to sphenoid sinus
- Artificial Intelligence Aided Fitting
- Care Itinerary in dizziness
- Electrophysiology of the hearing
- Endoscopic Ear Surgery
- Flexible endoscopic Laser Surgery
- Laser procedures
- Narrow band imaging
- Neuro-otology surgery – video session
- Optiflow oxygenation in ENT
- Otoplan – practical exercise
- Sentinel Lymph Node Procedures
- Transnasal oesophagoscopy
- Vestibular assessment
- Virtual reality in vestibular revalidation
- Vocal fold injections (office/OR)

In case you want to book a workshop for the topics above or have another proposal for a workshop topic, please get in touch with Carola Precht from Mondial Congress & Events (precht@mondial-congress.com) who will get you in touch with the respective member of the subspecialty society to plan further details.

Driving jointly the future of ENT.
